**GBQ Partners with OneTrust, Enhances Cyber Risk Service Offerings**

---

**Columbus, OH, April 14, 2021:** GBQ today announced a partnership with [OneTrust](#), the largest and most widely used privacy, security, and data governance technology company, enhancing the firm's ability to manage and respond to risk while communicating and measuring compliance and governance for its clients.

Doug Davidson, Director of Information Technology Services at GBQ, shares how proper internal controls provide protection and enhance customer confidence: "Assisting clients in managing digital, cyber, and privacy risk requires experience and expertise. Through our partnership with OneTrust, our team can more fully focus on providing solutions that support our clients' efforts in maintaining business operations while keeping information secure and compliant."

"As the leader in privacy, security, and data governance technology, OneTrust is proud to partner with GBQ to provide innovative risk management solutions such as OneTrust GRC," added Blake Brannon, OneTrust CTO. "Together, we will offer GBQ's customers a complete risk management platform that seamlessly supports everyday business activities while building and improving trust across their organizations."

GBQ IT Services is one team of builders, breakers, operators, and auditors with access to a consortium of 50 experienced IT, cyber and assurance professionals delivering IT risk, cybersecurity, and productivity solutions. Together, they build value through IT strategy; protect value with information risk and cybersecurity services; measure value and improve productivity with data analytics and process automation; and assure value through IT audit services.
