Dan joined GBQ in 2016 with over ten years of public and private accounting firm experience, providing tax and audit services to various clients. At GBQ, he oversees a variety of tax engagements for C corporations, S corporations, partnerships, nonprofits, trusts and individuals. Additionally, he provides accounting, tax compliance and consulting services to small, closely held businesses and their owners.

Throughout his career, Dan has served clients in a wide range of industries, performing financial audits of local government entities across Ohio, as well as companies in the manufacturing and distribution, construction, real estate, and nonprofit industries. His time as a controller for a small sporting goods distribution company gave him great insight into the complex matters that several small to middle-market clients he serves come across.
